Name: Company:	Tax ID: Tax Code: Regulatory Group: Country:
<p>The identification code required by various tax authorities. This can be a social security number, federal or state corporate tax ID, sales tax number, and so on. Do not enter separator characters. The system verifies the number and prints the separators in their correct format according to the value of TAXC (Person/Corporation Code). If there is no value for TAXC, the system uses the Corporate Entity.</p> <p>Attention Accounts Payable users: The supplier master record supplies the default value for the tax ID for 1099 processing.</p>	
<p>Es el código de identificación que requieren algunas autoridades fiscales. Puede ser el número de seguro social, el número de identificación fiscal federal o estatal, el número de impuestos sobre ventas, etc. No introduzca caracteres separadores. El sistema verifica el número e imprime los separadores en su formato correcto, de acuerdo con el valor de TAXC [Código de persona física o jurídica]. Si no existe un valor para TAXC, el sistema usa la Entidad corporativa.</p> <p>Atención usuarios de Cuentas por pagar: el registro Maestro de proveedores proporciona el valor implícito para la identificación fiscal del procesamiento de la forma 1099.</p>
